

Employment

Product Engineer Intern	Isomer AI	May 2025 – May 2026
- Deployed 10+ production AI features into enterprise workflows: multi-model LLM pipelines (Claude, GPT-4o, Gemini), Temporal.io agentic workflows with MCP tooling, and Auth0 RBAC; 923 commits, 7 deployments. - Owned the full backend stack (PostgreSQL, Redis, Docker, Terraform, Sentry APM); managed CI/CD pipelines, resolved production incidents on-call, and upheld SLA across enterprise client environments.		
Graduate Research Assistant	NC State University	April 2025 – Present
- Designed and deployed a cloud-based genomic data platform on GCP (Cloud Run) with JBrowse 2, enabling interactive visualization of 500GB+ strawberry and grape genome datasets for 100+ researchers worldwide. - Improved ML model accuracy by 12% through systematic hyperparameter tuning and time-series feature engineering on biological sensor data; built scikit-learn evaluation pipelines with cross-validated metrics.		
Software Developer Intern	Mphasis (HP Company)	Jun 2024 – Aug 2024
- Built 5+ AI-driven workflows including a health claim automation tool using OCR, NLP, and ML models, improving document processing accuracy by 25% across high-volume enterprise insurance pipelines. - Automated AWS and GCP deployments via CI/CD pipelines, integrated Grafana dashboards for real-time monitoring, and led model red-teaming to identify failure modes and improve production reliability.		
AI/ML Intern	Capgemini	Jun 2023 – Aug 2023
- Led full SDLC for a data-driven support ticket analysis system using NLP classification models, reducing average resolution time by 15% and improving first-contact resolution rates across enterprise clients. - Built distributed data pipelines using Kafka streaming for real-time ingestion and Spark + Hadoop for batch processing, cutting ticket-processing latency by 20% and improving overall data throughput.		

Education

Raleigh, NC	North Carolina State University	Aug 2024 – May 2026
- Master of Science in Computer Science - Courses: Artificial Intelligence, Operating Systems, Algorithms, Data Science, Object Oriented Development, Software Engineering.		
Mumbai, India	Mumbai University	Aug 2020 – May 2024
Bachelor of Technology in Computer Science; CGPA: 9.32/10. Courses: Data Warehousing, Big Data Infra, DS & Algorithms, Machine Learning, Blockchain.		

Projects

LLM Eval Harness	AI Model Validation Platform	2025
- Vendor-neutral evaluation harness comparing Claude, GPT-4o, Gemini across 2,000 frozen examples; tracked ExactMatch, TokenF1, hallucination rate, abstention accuracy, p50/p95 latency, and cost-per-call. - Applied Bootstrap CIs and McNemar tests with Holm-Bonferroni correction across 3 repeated runs per model to surface statistically significant regressions; exported results to DuckDB + Parquet + Streamlit.		
AlgoPulse	Full-Stack Agentic AI Platform	2025
- Built agentic AI orchestration platform on Temporal.io and Kafka supporting multi-step reasoning pipelines; sustained 2,000 async inference requests per second under sustained production load with zero message loss. - Replaced API polling with event-driven Supabase Edge Functions; streamed AI results to React Native clients with sub-200ms SSE delivery; eliminated state loss under 2,000 req/sec sustained load.		

Languages and Technologies

- Languages:** Python, TypeScript, JavaScript, Java, Scala, SQL, Bash
- AI/ML & GenAI:** Claude/GPT-4o/Gemini APIs, LangChain, RAG, LLM evaluation, scikit-learn, PyTorch, TensorFlow, Pandas, DuckDB, Spark
- Cloud & APIs:** GCP, AWS, Azure, Docker, Kubernetes, FastAPI, Node.js, PostgreSQL, Redis, REST APIs, Temporal.io, Kafka
- DevOps & Observability:** GitHub Actions, Terraform, Helm, ArgoCD, OpenTelemetry, Prometheus, Grafana, Streamlit

Additional Experience and Awards

- IEEE Published:** Co-authored paper on CV-Based Cybersecurity Threat Detection (Springer icSoftComp 2023); presented to 500+ attendees.
- National Hackathon Winner:** Won or ranked Top 10 in 6+ national hackathons spanning ML, systems, and developer tools; built 3 complete MVPs end-to-end within 48-hour sprints, each with a working demo.
