PROFESSIONAL SUMMARY

MS CS student (NC State, May 2026) with production React and TypeScript experience across multiple deployed products. At Isomer AI, shipped 10+ frontend and backend features in a TypeScript/React/Node.js/PostgreSQL stack across 7 production deployments -- building real-time event UIs with Pusher, document workflows, and role-based access flows. Built AlgoPulse (React + Node.js, 2,000 async AI req/sec) and Sanjeevani (React, Top 1% of 1,100+ teams). Strong fintech curiosity: built a compliance-ready RAG system for fintech environments and a GenAI finance app (Top 10 of 100+ teams at HackNC24). Comfortable with AI-assisted development and take-home assessments.

CORE COMPETENCIES

React (v16+) & TypeScript

JavaScript (ES6+)

Full-Stack Product Engineering

Node.js / Express APIs

PostgreSQL & Redis

Real-Time UIs (Pusher / WebSockets)

Python (Flask / Scripting)

AWS & Cloud Infrastructure

AI-Native Development

EXPERIENCE

Isomer AI May 2025 - Present
Product Engineer Intern - Remote

- Shipped **10+ production features** in a **TypeScript/React/Node.js/PostgreSQL** stack across 7 deployments -- building real-time event pipelines (Pusher), document processing UIs, RBAC flows, and multi-model AI integrations end-to-end
- Converted business requirements into polished, performant React interfaces; worked directly with product and backend teams in a cross-functional startup environment -- **394 commits** to the production codebase
- Integrated Auth0, Redis, Docker, Sentry, and S3 across the full stack; wrote clean, maintainable TypeScript with thorough code review participation

NC State University Apr 2025 - Present
Graduate Research Assistant

- Built a **React + JBrowse 2** genomic data platform serving 100+ researchers on Google Cloud Run across 500GB of datasets; applied ML model tuning, improving accuracy by 12%

Mphasis (HP Company) Jun 2024 - Aug 2024
Software Developer Intern

- Built 5+ AI-driven automation workflows in Python; automated deployments on AWS & GCP with Grafana monitoring dashboards; improved health claim accuracy by 25%

Capgemini Jun 2023 - Aug 2023
AI/ML Intern

- Led end-to-end SDLC for a support ticket automation system; built Kafka + Spark data pipelines reducing latency by 20%

PROJECTS

AlgoPulse - Full-Stack AI Platform Independent · 2025

Built a **React + Node.js** full-stack platform for AI-powered analysis. Designed responsive UI with real-time streaming via Supabase Edge Functions. Scaled backend to **2,000 async AI inference req/sec** with Temporal.io workflow orchestration and Kafka state sync -- zero state loss under load.

TypeScript · React · Node.js · Temporal.io · Kafka · Supabase Edge Functions · PostgreSQL

PerCent - GenAI Finance App HackNC24 Top 10 of 100+ teams

Full-stack **fintech app** with goal tracking, expense logging, and a RAG-powered AI chatbot (Qwen-14B-Chat) reducing manual financial research by 30%. Built complete React + backend MVP in 48 hours -- ranked top 10 at HackNC24.
React · Node.js · Python · Hugging Face · Qwen-14B-Chat · RAG

Glance AI - Fintech RAG System Independent · 2025

Compliance-ready RAG system for **fintech and healthcare** environments with per-tenant data isolation at the vector retrieval layer. Deterministic output architecture -- 0 cross-tenant context leakage by design.
Python · LLMs · Vector Databases · RAG

Sanjeevani - Health App Top 1% of 1,100+ teams

Full-stack **React** health application with ML-powered predictive insights achieving 87% accuracy using real-time sensor data. Shortlisted top 12 of 1,100+ teams for UI and product innovation.
React · Node.js · Python · ML classification models

CryptoKnight - Trustless AI Trading Agent HackNC State · 2025

Autonomous Polymarket trading agent using ERC-4337 Account Abstraction and Session Keys -- 100% autonomous, 0 private keys shared.
Next.js 16 + viem + wagmi frontend with Python agent backend.
Next.js 16 · viem · wagmi · Python · ERC-4337 · Alchemy Account Kit

EDUCATION

North Carolina State University - MS Computer Science Aug 2024 - May 2026
Courses: Artificial Intelligence, Operating Systems, Data Science, Software Engineering, Algorithms

Mumbai University - BTech Computer Science Aug 2020 - May 2024
CGPA: 9.32/10 · Courses: DS & Algorithms, Machine Learning, Software Engineering, Big Data Infrastructure

SKILLS

- Frontend:** React (v16+), TypeScript, JavaScript (ES6+), Next.js, Tailwind CSS, Vite, HTML/CSS
- Backend:** Node.js, Express, Python, Flask, PostgreSQL, Redis, Prisma, REST APIs
- Infrastructure:** AWS, GCP, Docker, CI/CD, Kafka, Temporal.io, RabbitMQ-adjacent (Kafka), Git
- AI/ML:** OpenAI API, Anthropic Claude, LangChain, MCP, RAG, PyTorch, TensorFlow, Hugging Face
- Other:** Java, C, SQL, Grafana, Sentry, Auth0, S3, Pusher
